Comprehensive Plan Amendment updating the Capital Improvements Element (CIE)  
with the adopted five-year capital projects program for FY 2007-2011.

**AFFECTED DISTRICT:** Townwide

**ITEM REQUEST:** **Schedule for Council Meeting**

**TITLE OF AGENDA ITEM:** ADOPTION - AN ORDINANCE OF THE TOWN OF DAVIE, FLORIDA, ADOPTING REVISED APPLICATION LA(TXT) 4-3-07, AMENDING THE TOWN OF DAVIE COMPREHENSIVE PLAN BY UPDATING THE CAPITAL IMPROVEMENTS ELEMENT WITH THE REVISED ADOPTED 5-YEAR CAPITAL PROJECTS PROGRAM FOR FY 2007-2011 PURSUANT TO CHAPTER 163, FLORIDA STATUTES; PROVIDING FOR FILING WITH THE DEPARTMENT OF COMMUNITY AFFAIRS; PROVIDING FOR CONFLICT; PROVIDING FOR SEVERABILITY; AND PROVIDING FOR AN EFFECTIVE DATE.

**REPORT IN BRIEF:** This request is to revise the adopted (Ord. # 2008-7) Comprehensive Plan amendment (LA(TXT) 4-3-07) that updated the Capital Improvements Element (CIE) with the 5-Year Capital Projects Program for FY 2007-2011. This request adheres to the settlement agreement stipulations prepared by the Department of Community Affairs (DCA) which includes the removal from the CIP FY 2007-2011 the following seven projects whose funding sources have been determined not to be financially feasible by DCA:

1. Deep well reject water disposal
2. Lift station rehab
3. Rehabilitate LS #11
4. South WTP water quality improvement
5. South WTP water quality improvement & capacity expansion
6. Wastewater treatment plant expansion
7. United Ranches Utility

Legislation enacted by the 2005 Florida Legislature (Senate Bill 360) mandates that local governments must annually update the CIE of the Comprehensive Plan with a financially feasible five-year schedule of capital improvements. In order for a project to be financially feasible, it must have sufficient revenues currently available or revenues that will be available from committed funding sources for the first three (3) years, or will be available from committed or planned funding sources for years four (4) and five (5) of the 5-year capital projects schedule.

A Resolution (#R-2006-299) adopting the Town's Five-Year Capital Projects Program for fiscal years 2007-2011 was approved by Town Council on November 15, 2006. According to Section 163.3177 F.S., this five-year schedule of capital improvements must be incorporated, through the Comprehensive Plan amendment process, into the CIE of the Town's Comprehensive Plan. A Comprehensive Plan amendment (Ord. # 2007-20) updating the CIE with the adopted Five-Year Capital Projects Program for FY 2007-2011 was approved by Town Council on July 18, 2007. On August 15, 2007 staff transmitted to the Department of Community Affairs (DCA) the adopted amendment (Ord. # 2007-20) as per the requirements of Rule 9J-11.011 F.A.C. The Town received a letter, dated October 16, 2007, from DCA indicating that the adopted CIE annual update for FY 2007-2011 was determined to be "not in compliance" with the requirements of Chapter 163, Part II, F.S. due to the fact that certain projects listed in the adopted Five-Year Schedule of Capital Improvements FY 2007-2011 were not financially feasible.

At that time, the Town Attorney and staff were working with DCA on how to appropriately correct these discrepancies regarding the funding sources. As a result, on February 20, 2008, the Town approved the revised 5 Year Capital Projects Program for fiscal years 2007-2011 (Ord.# 2008-6) which included the corrected funding sources according to DCA's comments. In addition, Town Council also approved revised application LA(TXT) 4-3-07 (Ord # 2008-7), the amendment to the CIE in order to incorporate the newly revised 5 Year Capital Projects Program for FY 2007-2011. These documents were then resubmitted to DCA.

On April 8, 2008 staff was notified by DCA that those capital projects with the funding sources of 'state revolving loan fund', 'water and sewer bonds' and/or 'special assessment' were not financially feasible due to the fact that they were not committed funding sources. Staff then approached the South Florida Regional Planning Council (SFRPC) in an effort to resolve these outstanding issues. In a conference call held June 11, 2008 which included representatives from the Town, DCA and SFRPC, it was agreed upon by all parties present that the Town would remove from the CIP FY2007-2011 the seven projects noted above. This action is not detrimental to the Town because these projects are included in the CIP for FY2008-2012 with funding strategies which are cost-feasible. On June 11, 2008, staff submitted to DCA a remedial amendment with the agreed upon changes (see Exhibit A). On July 16, 2008, the Town received a settlement agreement from DCA indicating that Exhibit A contains the remedial actions needed for compliance.

**PREVIOUS ACTIONS:** At the November 15, 2006 Town Council meeting, Vice-Mayor Crowley made a motion, seconded by Mayor Truex, to approve the five-year capital projects program for fiscal years 2007-2011 subject to coming back to Council with the amendment suggested by Councilmember Paul. (Motion carried 3-1).

At the July 18, 2007 Town Council meeting, Councilmember Starkey made a motion, seconded by Mayor Truex, to approve LA(TXT) 4-3-07. (Motion carried 5-0).

At the February 20, 2008 Town Council meeting, Councilmember Crowley made a motion, seconded by Councilmember Starkey, to approve the amended five-year capital projects program for fiscal years 2007-2011. (Motion carried 5-0).

At the February 20, 2008 Town Council meeting, Councilmember Starkey made a motion seconded by Councilmember Crowley, to approve revised application LA(TXT) 4-3-07. (Motion carried 5-0).

## COMMENTS:

Service life of 25 years. One year warranty. Personnel cost is based on Park Ranger cost to open, patrol and close site on a daily basis. Personnel cost could increase to \$30,000+ if it becomes necessary to have a staff person (Part Time Recreation Attendant) on site eight hours per day or more. Operation and maintenance costs: \$3000 mowing; \$4,000 flea and tick control and clean up bags. Sponsorships or use fee could be used to off set operational costs. Funding approved in 2006 GO Open Space Bond.

## COMMENTS: 1

Undesignated, Unreserved Retained Earnings. Note that undesignated, unreserved retained earnings are resources that are available for appropriation from the accumulation of revenues over expenses in prior years that have not already been designated for a particular purpose.

Pursuant to Rule 9J-5.016(4)(a)1.b., F.A.C., the Five-Year Schedule of Capital Improvements must include a demonstration of consistency with the individual elements of the Town's Comprehensive Plan. Although this is not indicated on the FY 2007-2011 Schedule itself, the following goals, objectives and/or policies of the Comprehensive Plan have been identified as being consistent with certain projects in the Schedule:

<b><u>Capital Project Item</u></b>	<b><u>Consistency with other Plan Elements</u></b>
-Pedestrian-Transit Shelters 2007	See Transportation Element, Policy 6.1.3.
-Sunny Lake Bird Sanctuary Park Development 2007, Van Kirk Site Development 2007	See Future Land Use Element, Policy 11-7 & See Recreation, Open Space and Conversation Element, Goal 3
-Recreational Trails 2007, Equestrian Trails 2007	See Recreation, Open Space and Conversation Element, Goal 2 & Future Land Use Element, Policy 11-6 and 11-7

### **Unfunded Projects**

Projects listed in the "Unfunded" category means that funding for these projects is not yet identified within the Town's budget for the foreseeable future. Town officials may be carefully evaluating and considering various funding scenarios for these projects, but specific details and revenues have not been secured. These "unfunded" projects are a valuable planning tool in that they identify very important needs and long-term initiatives that the Town must continue to evaluate and allow for future planning consistent with the priorities of future Town Councils, citizen input, and the Town's Comprehensive Plan.

In addition, subsequent Five Year Schedules of Capital Improvements adopted by the Town will identify the projects needed to achieve or maintain adopted level of service standards for public facilities. These schedules of capital improvements will include committed funding sources in the first three years and committed or planned sources of funding for years four and five as defined in Section 163.3164(32), F.S. and described in Section 163.3177(3)(a)5, F.S.
